Series: 30315 Type: CBM

Self Clinch Blind Standoffs provide a strong female thread in sheet metal. They are designed to provide a flush finish on the reverse side and are available in various lengths to allow components to be mounted at the required stand off distance from the sheet. They are installed using a squeezing action with a press whilst supporting the reverse side. The blind hole makes the part almost invisible on the reverse side of the panel. Materials & Finishes:-Heat Treated Carbon Steel Trivalent Zinc (Code 60)303 Stainless Steel Self Colour (Cose SS)

To Specify use Series No / Part No / Length / Finish Code eg 30315 03CBM10 60

Available Lengths
